Enviro-Pump Flood Pump+ System

Shown with Optional Wand

The first step in flood restoration is to remove as much water as possible. The Flood Pumper+ is powerful enough to tackle the toughest recovery jobs, yet is easy to use. Designed specifically for water recovery, the Flood Pumper+ is available in two models, the PF+5 with 5 gallons per minute discharge or the PF+10 with 10 gallons per minute discharge. The single power cord operation minimizes blown breakers and searching for additional circuits when electrical power is at a premium. The FP+ connects to an ordinary garden hose so you can use as many, or as few, as you need to drain the waste water exactly where you need it to go. The FP+ also features a large 9î x 9î access opening to make clean up a snap. Large debris is caught on the 50 gauge steel mesh filter for easy disposal.

Smarter Wet Mopping

There are several important factors to consider when choosing a wet mop. Use the guidelines on the following pages to choose the best wet mop for your floor care needs.

GENERAL MOPPING

Choose mops with high absorbency, release, and durability. If laundering is available, launderable mops will be the most economical choice. Synthetic, rayon, and blended fiber mops with looped ends and woven tailbands offer the best performance and launderability.

FINISH MOPPING

Look for rayon or synthetic mops for high absorbency and release, and construction features such as tailbands and looped ends for better floor coverage and less streaking.

A. Latex Disposable Gloves

Provide the best feel, fit and dexterity. Our gloves are available in both lightly powdered and powder free options in a variety of thicknesses. Our lightly powdered latex gloves are produced with a food grade corn starch powder, making donning easier especially when hands are wet. Powder free gloves go through an extra process of chlorinating the gloves to ease donning.

C. Premium Vinyl Disposable Gloves

Vinyl gloves are latex free and our most popular general purpose glove. Vinyl gloves are stronger than polyethylene gloves, and offer greater comfort for jobs like food preparation, bussing, and cleaning where gloves will be worn for a greater period of time. Our lightly powdered versions are produced with a food grade corn starch powder, making it easier to take them on or off – especially with wet hands. Powder free gloves go through an extra process of chlorinating the gloves to ease donning.
